### Introduction and Contribution to Wikipedia

a) Description about Wikipedia and its features:

Wikipedia is a free, open content online encyclopedia created through the collaborative effort of a community of users known as Wikipedians. Anyone registered on the site can create an article for publication. Jimmy Wales and Larry Sanger co-founded Wikipedia as an offshoot of an earlier encyclopedia project, Nupedia, in January 2001. Originally, Wikipedia was created to provide content for Nupedia. However, as the wiki site became established it soon grew beyond the scope of the earlier project.

Its features:

- Creating a page
- Editing a page
- Link between pages
- It is globally available on all platforms
- It can provide a large amount of information
- Users can share their own thoughts and knowledge
- It is easy to use
- Available in multiple languages

**COI Editing**

When having either a business or personal relationship with a subject there are a few things to keep in mind.

- You can request an article**  
It's improbable when having a conflict of interest to write in a way that doesn't favor the subject unduly. However, you can always **request** the article be written by someone else. This will prevent you from introducing an intrinsic bias into the article, since a neutral party will be writing the article.
- You can also request edits**  
Much like requesting a neutral party to make an article for you, you can also request another editor to make an edit on your behalf. More information on how to do so can be found [here](#).
- Stay transparent**  
Be open about your connection with the subject. There are many editors on Wikipedia, and it's likely you'll interact with them in some way. Being transparent is a integral step in having other editors help you with your article.
